Did a Thorough Job

A letter from Mr. and Mrs. Theodore Mackenheimer tells of a very thorough robbery committed a few days since at their home at San Antonio, Texas. Mr. and Mrs. Mackenheimer have a very beautifully furnished cottage in that city, but during their absence one evening recently they came very near losing their furniture and home, too. About everything movable, except the flooring, and possibly the bathtub and kitchen range—perhaps the latter was shot—was carted away, including a \$150 gold watch, all their other jewelry and silverware. However, some days later the Sheriff of that county got on the track of the thief, arrested him and recovered every single article stolen. Mrs. Mackenheimer is a sister of Mrs. James Cullen of this city, who but recently returned from a month's visit at San Antonio.

Discovered in Time

Saturday evening at 6:45 o'clock an alarm was sent in from District No. 36, which proved to be a rear outbuilding on the C. H. Frank premises in Court street and immediately opposite Traxel's bakery. The blaze was discovered by Mr. William Traxel, who, after sending in an alarm, played a stream on the blaze with a small hose, thus preventing the fire spreading to W. F. Power's ware-room adjoining. The Fire Department responded quickly and extinguished the fire. Again at 9:45 a still alarm was sent in, calling the firemen to the same locality, the fire having broken out anew, which was soon extinguished. The damage sustained altogether is inconsiderable, not over \$50. The origin of the fire is not known. Most likely, however, a lighted match was thrown on the floor by some one having occasion to visit the place. The location was a good one for a big conflagration had it not been discovered in its incipency.

The gauge marks 18.5 and falling.

BANG! BANG!

Husband—Did you hear the storm when it broke this morning?
Wife—That wasn't the storm. It was the new girl washing the dishes.

George Little, an engineer on the Louisville and Nashville Railroad, running between Paris and Cincinnati, has been an engineer for more than twenty-six years—twenty-three on the L. and N. and three on the C. and O.—and in all that time he has been in charge of an engine he has never had a mark against his record.

Mrs. C. C. Leer and daughter, Miss Carroll, of near Paris, narrowly escaped serious injury a night or so since by a folding bed closing up on them. Mr. Leer heard the crash when the bed fell over and went at once to their relief. Mrs. Leer was badly bruised but her daughter escaped unhurt.

COUNTY MANAGER WANTED.

A leading Fraternal Insurance Society is desirous of securing the services of a reliable white man to take exclusive charge of Mason county as its Organizer and Manager. A well-known resident of this county is preferred. He must be an honest and capable man, able to furnish good references and to command the respect of his fellowmen. It is not absolutely necessary that he give his whole time at the start, but it will be later on as the work progresses. This Society writes direct business and also operates through a lodge system. It pays cash benefits for sickness, injury, accident and death, and its certificates are in great demand wherever introduced, being strictly new and popular. This is a splendid opportunity for a good man, as a very liberal offer will be made to the one who can meet the necessary qualifications. Write at once and give full particulars of self in first letter. Address in confidence.

20% UNDERFEED INVESTMENT

Most heating systems are an actual drag on the domestic treasury. If you want to enjoy actual every-winter dividends, tear out your old glutinous coal-eater, with its uneven heat and hard-to-satisfy appetite for fuel. Put in a

PECK-WILLIAMSON UNDERFEED FURNACE OR BOILER

Choose the system you like best—warm air, steam or hot water. Cheap—no slack in the Underfeed yields as much clean, even heat as most expensive grades; which ordinary heating plants require. All the fire is on top and has to eat down into the fresh coal against the draft. Combustion is slow and perfect, and smoke, soot and gases are entirely eliminated. This enables Underfeed furnace and boiler users to

SAVE 20% OF COAL BILLS.

This saving represents a 20% dividend on the investment for this modern system of heating. Figure it out. It won't take long to get your money back. The Underfeed adds to the selling or renting value of any building.
